2 Sentinels

Indeed the fossils of Cascade But  
including the hill of Square Peak & the  
Mojave Mountain of Mojave called the  
Cascade along the foothills of the  
Mojave Mountains. Masses of conglomerate  
rocks -

We call the conglomerates -  
These two gigantic pits are the  
Sentinels standing guard at the mouth  
of Snake Canyon. They been there?

How long have they formed from the  
How were they formed?  
Floor of Snake Valley.  
How great was the force & volume  
of Snake River thru the ages - the  
why was that Snake Canyon  
chasm cut thru the Snake But  
range -

2 - Sentinels

How years of "Redman's"  
Redman's has garnered the flow  
& garnered its power & finally  
reduced this former booming  
hydraulic force into merely  
a ditch.  
My recent flight (Aug 2000)  
down the river from Lees Ferry  
to Vernal Park was gentle & calm  
bottom - dropping about
